MANIFEST ANALYSIS

ISSUE	SEVERITY	DESCRIPTION
Application Data can be Backed up [android:allowBackup=true]	medium	This flag allows anyone to backup your application data via adb. It allows users who have enabled USB debugging to copy application data off of the device.
Activity (com.moez.QKSMS.ui.popup.QKComposeActivity) is not Protected. An intent-filter exists.	high	An Activity is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device. The presence of intent-filter indicates that the Activity is explicitly exported.
Activity-Alias (com.moez.QKSMS.ui.MainActivity-Default) is not Protected. An intent-filter exists.	high	An Activity-Alias is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device. The presence of intent-filter indicates that the Activity-Alias is explicitly exported.
Activity-Alias (com.moez.QKSMS.ui.MainActivity-Dark) is not Protected. An intent-filter exists.	high	An Activity-Alias is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device. The presence of intent-filter indicates that the Activity-Alias is explicitly exported.
Activity-Alias (com.moez.QKSMS.ui.MainActivity-Teal) is not Protected. An intent-filter exists.	high	An Activity-Alias is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device. The presence of intent-filter indicates that the Activity-Alias is explicitly exported.
Activity-Alias (com.moez.QKSMS.ui.MainActivity-Red) is not Protected. An intent-filter exists.	high	An Activity-Alias is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device. The presence of intent-filter indicates that the Activity-Alias is explicitly exported.
Activity-Alias (com.moez.QKSMS.ui.MainActivity-Pink) is not Protected. An intent-filter exists.	high	An Activity-Alias is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device. The presence of intent-filter indicates that the Activity-Alias is explicitly exported.
Activity-Alias (com.moez.QKSMS.ui.MainActivity-Purple) is not Protected. An intent-filter exists.	high	An Activity-Alias is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device. The presence of intent-filter indicates that the Activity-Alias is explicitly exported.
Activity-Alias (com.moez.QKSMS.ui.MainActivity-DeepPurple) is not Protected. An intent-filter exists.	high	An Activity-Alias is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device. The presence of intent-filter indicates that the Activity-Alias is explicitly exported.
Activity-Alias (com.moez.QKSMS.ui.MainActivity-Indigo) is not Protected. An intent-filter exists.	high	An Activity-Alias is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device. The presence of intent-filter indicates that the Activity-Alias is explicitly exported.
Activity-Alias (com.moez.QKSMS.ui.MainActivity-Blue) is not Protected. An intent-filter exists.	high	An Activity-Alias is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device. The presence of intent-filter indicates that the Activity-Alias is explicitly exported.
Activity-Alias (com.moez.QKSMS.ui.MainActivity-LightBlue) is not Protected. An intent-filter exists.	high	An Activity-Alias is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device. The presence of intent-filter indicates that the Activity-Alias is explicitly exported.
Activity-Alias (com.moez.QKSMS.ui.MainActivity-Cyan) is not Protected. An intent-filter exists.	high	An Activity-Alias is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device. The presence of intent-filter indicates that the Activity-Alias is explicitly exported.
Activity-Alias (com.moez.QKSMS.ui.MainActivity-Green) is not Protected. An intent-filter exists.	high	An Activity-Alias is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device. The presence of intent-filter indicates that the Activity-Alias is explicitly exported.
Activity-Alias (com.moez.QKSMS.ui.MainActivity-LightGreen) is not Protected. An intent-filter exists.	high	An Activity-Alias is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device. The presence of intent-filter indicates that the Activity-Alias is explicitly exported.

ISSUE	SEVERITY	DESCRIPTION
Activity-Alias (com.moez.QKSMS.ui.MainActivity-Lime) is not Protected. An intent-filter exists.	high	An Activity-Alias is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device. The presence of intent-filter indicates that the Activity-Alias is explicitly exported.
Activity-Alias (com.moez.QKSMS.ui.MainActivity-Yellow) is not Protected. An intent-filter exists.	high	An Activity-Alias is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device. The presence of intent-filter indicates that the Activity-Alias is explicitly exported.
Activity-Alias (com.moez.QKSMS.ui.MainActivity-Amber) is not Protected. An intent-filter exists.	high	An Activity-Alias is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device. The presence of intent-filter indicates that the Activity-Alias is explicitly exported.
Activity-Alias (com.moez.QKSMS.ui.MainActivity-Orange) is not Protected. An intent-filter exists.	high	An Activity-Alias is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device. The presence of intent-filter indicates that the Activity-Alias is explicitly exported.
Activity-Alias (com.moez.QKSMS.ui.MainActivity-DeepOrange) is not Protected. An intent-filter exists.	high	An Activity-Alias is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device. The presence of intent-filter indicates that the Activity-Alias is explicitly exported.
Activity-Alias (com.moez.QKSMS.ui.MainActivity-Brown) is not Protected. An intent-filter exists.	high	An Activity-Alias is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device. The presence of intent-filter indicates that the Activity-Alias is explicitly exported.
Activity-Alias (com.moez.QKSMS.ui.MainActivity-Grey) is not Protected. An intent-filter exists.	high	An Activity-Alias is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device. The presence of intent-filter indicates that the Activity-Alias is explicitly exported.
Activity-Alias (com.moez.QKSMS.ui.MainActivity-BlueGrey) is not Protected. An intent-filter exists.	high	An Activity-Alias is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device. The presence of intent-filter indicates that the Activity-Alias is explicitly exported.
Broadcast Receiver (com.moez.QKSMS.receiver.IconColorReceiver) is not Protected. [android:exported=true]	high	A Broadcast Receiver is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device.
Broadcast Receiver (com.moez.QKSMS.receiver.BootReceiver) is not Protected. An intent-filter exists.	high	A Broadcast Receiver is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device. The presence of intent-filter indicates that the Broadcast Receiver is explicitly exported.
Broadcast Receiver (com.moez.QKSMS.ui.widget.WidgetProvider) is not Protected. An intent-filter exists.	high	A Broadcast Receiver is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device. The presence of intent-filter indicates that the Broadcast Receiver is explicitly exported.
Broadcast Receiver (com.mariussoft.endlessjabber.sdk.EndlessJabberReceiver) is not Protected. An intent-filter exists.	high	A Broadcast Receiver is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device. The presence of intent-filter indicates that the Broadcast Receiver is explicitly exported.
Broadcast Receiver (com.moez.QKSMS.receiver.AirplaneModeReceiver) is not Protected. An intent-filter exists.	high	A Broadcast Receiver is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device. The presence of intent-filter indicates that the Broadcast Receiver is explicitly exported.
Service (com.moez.QKSMS.service.ShouldIAnswerService) is not Protected. An intent-filter exists.	high	A Service is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device. The presence of intent-filter indicates that the Service is explicitly exported.
Service (com.moez.QKSMS.service.HeadlessSmsSendService) is Protected by a permission, but the protection level of the permission should be checked. **Permission:** android.permission.SEND_RESPOND_VIA_MESSAGE [android:exported=true]	high	A Service is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device. It is protected by a permission which is not defined in the analysed application. As a result, the protection level of the permission should be checked where it is defined. If it is set to normal or dangerous, a malicious application can request and obtain the permission and interact with the component. If it is set to signature, only applications signed with the same certificate can obtain the permission.
High Intent Priority (2147483647) [android:priority]	medium	By setting an intent priority higher than another intent, the app effectively overrides other requests.
